

Audubon
ADVENTURES
For young nature-lovers at school or at home

Dear Members of Francis M. Weston Audubon Society,

It's Back to School time again and FMWAS is asking for your help to provide Audubon Adventures for classrooms in Northwest Florida.

Audubon's award-winning environmental education program can be implemented in any classroom or after-school program. Designed for teachers and students in grades 3-5, Audubon Adventures offers top-quality nonfiction material from the environmental experts at the National Audubon Society. With captivating hands-on activities, students learn that we all have a personal stake in the health of the environment and play an important role in its preservation and improvement.

This is the 33rd year for Audubon Adventures. The topic for this year, 2016-17, is "Wild About Birds". It contains three study units which can be ordered in single sets with teachers guides or pre-bundled together as a classroom kit. These are the themes:

1. Owl Prowl
2. The Watery World of Wading Birds
3. Wild About Birds

FMWAS has traditionally participated in this program. We are asking you to help us to continue this tradition by contributing \$50.00 to sponsor a classroom or to provide these materials for the Roy Hyatt Environmental Center.

Please fill out the below form and return with your contribution in the enclosed envelope.
Thank you for your continued support!
Education Committee, Mary Jones

Please make checks payable to FMWAS and note "Audubon Adventures" on memo line.

_____Hyatt Center or Classroom kits

_____Designated Classroom

Teacher's Name _____ School _____
